Edgetech Industries is a contract manufacturer of electronic and electro-mechanical assemblies. Located in Davenport, Iowa; our 12,000sq. ft. climate controlled facility is within easy access of Interstate 80. We have been providing manufacturing solutions to our customer base throughout the U.S., since 1997.

Our expert staff is dedicated to providing the highest possible quality, value and service to all of our customers.

Our manufacturing capabilities include:

- Automated through-hole and surface mount printed circuit board assembly
- No clean soldering using IPC and J-STD approved chemistries
- Conformal coating
- Potting
- Component Preparation
- Programming
- Wiring and Final Assembly
- Diagnostic and/or functional testing
- Electronic wiring harnesses and cable assemblies through our sister company in Carmel, IN.

Quality:

Edgetech has the experience to do your job right. With an IPC registered Instructor, we have an on-going certification program for IPC, ESD and MSD standards. Our prevention oriented quality program is designed to minimize wasted effort and to get your product right the first time.

Service:

EdgeTech's processes are designed to maximize flexibility to accommodate your changing needs. We understand the needs of our customers and will not try to place our clients in a "one size fits all" program.

Value:

Our experienced procurement staff will spare no effort to minimize the total cost of your product. We have the knowledge and purchasing power to minimize your component costs combined with the manufacturing know-how to tailor our processes to maximize efficiency for your unique assembly requirements.
